Prime Minister

I am writing today to give you a chance to end this nonsense fast and quietly as I want to avoid further waste of my life and angst.

I've given up trying to persuade the Treasurer to be positive but the claims will not go away. Mr Chalmers is promulgating his and Senator Gallagher's progress but they have nothing to proffer on suppressed essential priorities like reducing bushfire risk and maintaining dysfunctional covid and regional governance.

Today Brookings has declared 50 American conurbations as being unprepared for climate and covid change and the Australian situation is worse as Kennedy has been suppressing the parallel Australian effort, my national cooperative infrastructure template, for 7 years – with maximum cruelty to me and mine and to Australia. The refusal to “repair” in defiance of OECD and World Bank protocols maintains the waste and inefficiencies of past mistakes while camouflaging his and his LNP clients' corruption and malfeasances.

Governments have stolen all my assets and 10 years of my life and committed genuine atrocities along the path, many of which have been appeased. Cruelty, oppression, deprivation and intimidation become worse the longer they extend.

This is the position I am prepared to advertise on the basis of this letter and previous, on the way to releasing a substantial critique on Tuesday if I'm forced to work yet another weekend:

I have given the Prime Minister a final fair offer to adopt a positive approach to our national integrity, climate, bushfire and flood and covid crises among others.

This is as we veer from appeasing Morrison, giving comfort to Labor's enemies, and misrepresenting important issues of genuine criticality to future generations as well as our international repute; into the Criminal Code and common law over conspiracy, fraud and larceny, intimidation and harassment, duress and cruelty, and maladministration.

I trust the PM will act as an experienced industrial negotiator and restore Labor values of fairness and care for the community without further delay, in the spirit of “*I know I have to change and I will*”, and “*we will put an end to the shameful tolerance of corruption*”..

The attached schedule outlines the terms of the cancellation of the offer of 22 May and new statement of terms for the escape from opprobrium for the October Budget. I will follow with a revised draft deed of agreement. None of these are unfair or exploitative. I can almost hear Mr Kennedy's protestations but with the usual malicious intent. There can be no reason except mischief to delay settlement especially, after four requests for conciliation were not replied to.

As the 2022 Budget rolls up preparation time for a genuine Labor revival, there appears to be an increasing tendency to glad-hand on overseas trips and give assurances to Pacific neighbours

instead of focussing on real options and well-targetted solutions linked with defined outcomes and Budget performance targets.

Social media looking for solutions but are incapable of developing them, so a well-managed engagement cycle could have high returns.

I assure you of my goodwill and ask that you respond in similar mode, I too need a dog (and prescription glasses)!

Robert

The Effects of Rejection of Economic Nous & the National Interest, with Vicious Plagiarism and Malevolence now Brought to Account

Turnbull	Morrison	Albanese
Baird	Frydenberg	Kennedy
Kennedy	Kennedy	Chalmers

There has been a severe decline in the quality and accountability of governance at national and state/territory levels. This specialist in imaginative but practical solutions has done so in the silo & policy/project cases. Now there is a need to squash retards and snake oil salesmen ignored, rejected but cherry-picking of major elements w/o payment

- Logic**
- Climate & demographic change were pressing on urban & regional medical, education & transit, add congestion & security facilities
 - Infrastructure planning was in chaos with waste & capacity crises inherited from NSW Labor esp lemma & Rees wastrels and avoidable damage added by insane LNP "gifting" & broken Election promises
 - Journalists gave all LNP wastrels Get Out of Jail Free cards by the x00s, Albanese was of that culture & endorsed Baird/jjjklian Malenomics

Original Offer

- Value Proposition**
- provision a national infrastructure review fund within iA but transparent, contributions by Feds (50%), States pro rata (e.g. NSW \$500 million)
 - purchase necessary IP in fair terms including template to be shared across Aus (the Newcastle NSIP which was spectacularly successful + Eddington in London and Baird in INSW)
 - expiate IP theft and health and macroeconomic & microeconomic damage to Australia through rejection of the National Interest and gifting to cronies & wastrels

Revised Offer

- 22 May to Albanese deemed to have been rejected, with loss of special benefits to PM including 4 national announcements
- capital sum at valuation as before but extant \$5 m penalty against Chalmers + extra \$5 million for nastiness & corruption, straight to Salvos & food banks
 - Piece rates now for major project lines as in a normal arrangement but no "monopoly" exploitation.
 - PM can decide on a practical pathway but the National Fund is an inevitability if Govt is to be credible

How appropriate. I'm writing a timeline on breaches of the federal criminal code and common law which goes back more than a decade and there's no interruption w Albanese's multiple entries - no understanding the Nuremberg principles

Brookings 23 Sept

The situation in Australia is worse: current Budget directions are worsening our state of preparedness. I've tweeted enough on this and published, I hope the PM will listen today. (This is from Brookings.)

Not according to plan: Exploring gaps in city climate planning and the need for regional action

Amid generational investment from the federal government, responsibility now moves to cities to reduce greenhouse gas (GHG) emissions and take faster action to combat climate change. A new analysis of plans in 50 large U.S. cities shows a clear lack of preparedness to decarbonize their built environment at the necessary scale, including transportation, buildings, and electricity, which represent the country's major GHG sources.

Rose Jackson says judge govts by care for most vulnerable

I agree which is why I condemn the federal government which has gone over 120 days now without addressing criminal offences against a citizen and his family and others

Re-circulating graphics flow-charting the decline of Rule of Law

These not new but no mistaking the malice & incompetence inherent in current governance seen in corona deaths & disability, inequity/ waste/ corruption, cruelty to community & citizens. Why is Labor extending Morrison malice in Timor, plagiarism & immigration, gaoling indig youth

Jim Chalmers is running a camouflage line on LNP corruption which of course Albanese appeased on 6 occasions but is trying to hide use his own role in the same plus Albo roll from 2007 to 2013. It won't work Jimbo

Albo is an experienced and skilled industrial negotiator so when faced with a cornucopia of legal matters arising from maladministration, I'm sure he will be efficient and quiet in making sure that integrity is achieved

Exchanging notes! California has led the world in vehicle emissions controls, wastewater discharges from factories, removing eucalyptus trees from forests, they are well ahead of Australia where a major problem remains, govts are deaf to best-fit solutions

Comparing notes on our policies to reduce to emissions and create job jobs in renewable energy with California Governor @GavinNewsom

If California was a country, it would be Australia's 5th largest trading partner. Much to do, together.

I'm getting the feeling that applause-seeking is replacing the passion to define and implement a true labor agenda

Someone! is psychotically afraid metro truth will come out, too late: Perrottet falsified successive budgets in silly effort to conceal quantum of Berejiklian's theft fm me. He helped Kennedy to manipulate corona payments in '20 so thinks he escapes "budget repair". NO is answer

@CatherineKingMP Nancy Bird SSA was cheated out of excellent transit scheme, Greiner's and mine, by the corrupt MTR "30-Minute Club" w Kennedy. There is no use pretending that WS City Deal was not greatest planning blunder in Aus history. twitter.com/

Chalmers camouflaging his panic

With only five weeks until the Budget, Finance Minister @SenKatyG and I wanted to update Australians on what to expect on October 25 and how we're addressing the nation's economic challenges. #auspol #ausecon

A reminder, Kennedy has been rejecting an essential element of budget reform for 7 years going on eight, Jim has been as cruel as he possibly can in slamming the door in my face and locking it
